Resumo

Portfolio: https://dev-matheus-henrique-portfolio.vercel.app/

As a skilled Software Developer with 5 years of experience in the
complete software development life cycle, encompassing analysis,
design, development, integration, and deployment of software
applications. Specialises in developing Web applications using
modern javascript frameworks and libraries. Aims to craft reliable
and transformative solutions by seeking to understand the problem's
origin.

As a Software Engineer, I have a strong expertise in frontend
frameworks like ReactJs, NextJs, and Angular2+, and backend
frameworks like NodeJs, Typescript, NestJs, and Express. With an
extensive knowledge of DevOps tools like ArgoCD, Kubernetes,
Jenkins, and Sonarqube, I have successfully delivered high-
performance solutions using Github workflow, Jenkins, Docker,
Kubernetes, RabbitMQ, MongoDB and PostgreSQL.

My experience includes working on various finance-related projects,
including payment and insurance systems, building a BFF for a
mobile ecommerce platform, and an online learning platform. I also
worked for one of Brazil's largest state-owned banks, Banco do
Brasil, where I developed new features for internal and external
platforms.

Skills:
- Frontend: ReactJs, NextJs, Angular2+
- Backend: NodeJs, Typescript, NestJs, Express, C#, .NET
- DevOps: ArgoCD, Kubernetes, Jenkins, Sonarqube
- Others: AWS, Github workflow, Docker, RabbitMQ, MongoDB,
Postgres, Kong, Konga
